So I've gone through everything. For the full run of lower cabinets in oak, the soft-close drawers and the quartz worktop, I can do it for 6,400 pounds including fitting. That holds for 30 days. If you want the tall larder unit as well, add 850.

Ninth of November is fine. I'll need a 30 percent deposit to order the oak, so 2,175. The balance is due when the worktop goes in.
